39th Motek
International trade fair for automation in production and assembly
📅 05.–08. October 2021
📍 Stuttgart

14th Bondexpo
International trade fair for bonding technology

automation
intelligence
for production and assembly

Exhibitor-Information
Intelligent, flexible solutions for automated production are essential parameters for the success of manufacturing companies in globalised markets. The world is changing. **Future-oriented fields of business** such as clean, individual mobility through the use of electric vehicles and the dawning of the hydrogen age with fuel cell propulsion are becoming reality, as are the efficient supply of electrical power and heat by means of renewable energy sources and increasing laboratory automation. Their success depends on reliable electronic components, assemblies and systems in manufacturing processes – connected with intelligent software. Industry 4.0 at its best.

Motek 2021, the international trade fair for automation in production and assembly, will present important, future-oriented, cutting-edge technologies and services which are required to this end are already available now. Thanks to the uniquely focused, holistic diversity of solutions for process-optimised, intelligently networked assembly sequences, **industrial value creation** in these new and already established markets is supported in concrete terms by the exhibitors. Present your technologies and services for well-conceived, flexible production layouts for manufacturing companies in all industrial sectors at #Motek2021. Be part of Motek and Bondexpo 2021!

### Key Technologies for New Business

Motek Nomenclature (short survey)

- Assembly systems and basic systems
- Handling technology
- Process technology for joining, machining, inspection and identification
- Components for special machine manufacturing
- Software and services

### Primary Industries for the Use of Modern Assembly Technology

- Vehicle manufacturing, automotive OEMs, suppliers to the automotive industry
- Machinery manufacturing, automation technology
- Construction industry, building technology
- Furniture industry, supplier industry
- Electrical industry, household appliances, power tools, EDP equipment
- Plant engineering for power generation and fuel production
- Healthcare, medical technology, pharmaceuticals industry, laboratories
- Consumer goods industry, food and beverages / hygiene and personal care / cosmetics
Processes used by production companies are becoming more effective due to their steadily increasing degree of digitalisation. **Industry 4.0** is becoming a **practical reality** to an ever greater extent. Thanks to industrial communication, as well as production and assembly machines that execute tasks autonomously, companies are able to keep pace with world markets – and penetrate new fields of business.

The **innovative technologies** required to this end such as flexible feed systems, interlinking systems with individual direct pallet drive, servo-electric and direct-driven handling systems and process units, industrial and service robots, AI solutions, special software for assembly and much more will be presented live to the expert audience at Motek and Bondexpo.

### Value Chains - Digital and Efficient

5 Reasons to be Part of #Motek2021

1. The exhibitors at Motek/Bondexpo offer the key technologies which are currently in demand for competitive production in all manufacturing industries.

2. The digital transformation of practical production methods will be demonstrated live at Motek/Bondexpo.

3. Experiencing the respective technologies with all of one’s senses and intensive discussions provide decision makers from management and engineering with support for their investment projects.

4. As an international trade fair, Motek/Bondexpo provides an ongoing know-how boost from the heart of the German machinery and equipment manufacturing industry to the globalised world.

5. A focused community of experts comes together at an established marketplace at Motek/Bondexpo. It’s the most important trade fair of the year for many participants.

“Products will be developed and projects will be launched directly at the trade fair by means of an individual, personal exchange with the users.”

Rainer Bachert, Project Manager
Exhibitors

911/32 thereof 659 Bondexpo
Exhibitors/Countries
697/214 Germany/foreign countries

Visitors

35,165/77 Visitors/Countries
24% Foreign share

Quality of influence

24% decisive
42% part-decisive
23% advisory

Topics of interest for the job (Multiple choice)

61% Assembly technology/assembly systems
56% Handling technology/robotics
33% Process engineering, joining/fastening
40% Components and drive technology
39% Sensor technology and control technology
18% Others

Position in the company

13% Managing director, board member, etc.
8% Authorized signatory, head of main department
23% Head of department, foreman
34% Engineer, design engineer
13% Other employee
6% Skilled worker
3% Others

Joining and Fastening in Modern Assembly

The Bondexpo international trade fair for bonding technologies will exhibit stand-alone and system solutions for joining and fastening components and modules in preassembly and final assembly. With its consistent focus on the industrial process sequence for joining/fastening by means of bonding, encapsulating, sealing and foaming, users receive up-to-date, practical information regarding materials, cost-effectiveness, quality, reliability and production efficiency.

Modern bonding technology and joining processes make a significant contribution to the development of new, innovative products and provide the industry sector with the opportunity of opening up new markets in all segments.

The use of bonding technologies in assembly will become more and more significant in the future. The resulting symbiosis is thus a perfect match for Motek. Mike Döring, Projekt Manager
Communal Booth - Individual Presence, Joint Services

Motek/Bondexpo stands for outstanding engineering services in the field of efficient, automated manufacturing processes. Are you ready to present your solutions at the communal booth organised by this well-established business platform and generate valuable contacts? Benefit from a comprehensive, all-round carefree package which includes attractive services for booth setup and marketing, as well as shared use of kitchen, storage and lounge areas. Full information is available as a PDF file.

Registration for Communal Booth
Including Showroom at Motek/Bondexpo-Virtual

---

Top Benefits for Start-ups & Exhibitors at the Communal Booth:

- Increased **public awareness** and enhanced **brand image** thanks to the enormous scope of Motek/Bondexpo at the international level.
- Highly beneficial and long-lasting business contacts can be established here in four days.
- Decision-makers integrate innovative solutions from Motek directly into their investment projects.

Registration for Start-up Area
Including Showroom at Motek/Bondexpo-Virtual

---

Innumerable start-ups have established themselves in recent years who are **revolutionising** future production and assembly automation with their **innovative solutions**. As a long-standing event, Motek would like to support in particular emerging companies, and provide them with a platform at the industry meeting place at the heart of Europe’s leading technology region.

At Motek/Bondexpo, start-ups can book an attractive all-round carefree package including booth setup and marketing. The prerequisite for participation is simple: exhibited products must be related to production and assembly automation.

Motek-Specials

Start-up Area - for Cutting-Edge Networking
Foreign representatives

A powerful network around the globe

Schall makes trade fairs for markets – global markets. P. E. Schall GmbH & Co. KG’s highly skilled foreign representatives are authorised to organise internationally important trade fairs in their respective countries. Competent and experienced, they offer exhibitors and media companies a comprehensive portfolio of services. From A for acquisition of exhibitors and booth setup assistance to Z for zealous, future-oriented media work – we maintain close contacts with market players in the respective national language.
